BAZARRE-ARTISTIQUE

SPRING ART MARKET
TO EXPLORE AND BE INSPIRED

During **Bazarre Artistique**, we offer artists and creatives the opportunity to showcase their work to a wide audience. With this initiative, the Amsterdam Street Art Foundation aims to establish an annual event introducing various Urban Culture art forms. Expect a diverse range of experienced and leading artists, alongside young and motivated talent.

During **Bazarre Artistique**, visitors will experience a creative boost at this hidden square in the heart of Amsterdam. With over 50 expo stands in both the Oosterkerk and on the Marie Altelaarplein, free workshops, live performances, food trucks, live art, and various activities designed especially for children, the elderly, and urban sports enthusiasts, we come together to create a creative playground for all ages.

Would you like to be part of the creative team as a volunteer? Let us know asap!

There is an open registration for those interested in the expo stands. However, to ensure the vision of Bazarre Artistique during this first edition, an artistic selection will take place.

Beside the expo stands there is a 2-day creative oriëntated program. This program is literally for all visitors, from young kids to older people but all based on Urban Culture.

We host: Workshops, live painting, music (acts), food, drinks and urban sport (tournaments)

For these activities we can use the help of volunteers. Do you like to be part of our creative team during the first edition of **Bazarre Artistique**? Please fill in the form below and respond to: info@amsterdamstreetart.com

Beside these creative activities we can also use the help during many practical production things. Think about, signing in the expo-stand participants, building up the artistique playground, answer questions of visitors and help out when necessary during the day.
